Floyd C. Reed And Party Reach Wyoming

Word was received yesterday from Floyd C. Reed, who left Glendale via automobile several weks ago with Mr. and Mrs. Jack Peebles of this city on a year's tour of the United States, saying that the party had reached Evanston, Wyoming. No serious mishaps have yet marred the trip except continued wet weather. Mr. Reed stated that they had encountered rain every day of their overland tramp but five. This was to be expected, however, as the first part of their trip has been through northern California, Oregon and Washington, which is the "wettest" section of the country.

Before returning to Glendale some time next year the tourists will visit friends and relatives in Colorado, Nebraska, Wisconsin, Iowa, Illinois, Michigan, Ohio and Canada.

Former Graduates To Hold Reunion Saturday

A number of former members of the graduating class of 1914 of the Glendale High school are planning on holding a reunion on Saturday afternoon and evening, when they will take part in a "wienie" bake at Santa Monica. The party will assemble at the Studebaker garage at 4 o'clock and will make the trip to the beach city in automobiles.

Weekly Church Supper Is Proving Success

The regular weekly church supper of the Central Christian church was held last night in the church bungalow. These suppers have proved a success and have helped in developing a spirit of good fellowship among the members. After the supper the meeting adjourned to the church building for the regular weekly prayer meeting.

Each week there is a different committee in charge of the dinner. For last night the committee in charge was Mesdames I. C. Wasson, C. Wyckoff, Floyd Mercer, E. R. Best and H. R. Stevenson. It was served by the young men's class.

There will probably be one or two more of these suppers held before the new church is started. It is expected that the new building will be under construction in about two weeks.

PRICES STILL SAG ON NEW YORK STOCK EXCHANGE

NEW YORK, June 9.—The stock market tended lower today. Forces which have been at work the last two days were still in evidence and prices sagged all the way through the list. Even the renewal of call money at 6½, the lowest renewal figure since May 24, had little effect on buying. Mexican oils quickly hit new low ground. There was a thin market in Pan American issues, the A shares breaking a point sometimes between sales. The B at 46½ was off 4½ net. U. S. Steel made a new low for the year at 77¼. Other opening quotations included: Crucible Steel, 62, off ¼; American Smelting, 39½, off ¼; Anaconda, 38½, off ⅛; Sinclair 22 1-8, off ⅛; Studebaker, 71¼, up¼; Cuba Cane Sugar, 17¼, off 1-8; Texas Company, 33 5-8, unchanged; Bethlehem B, 53, off ¼; General Asphalt, 58⅞, off 7-8.

There were ladies present from the different Methodist churches of this vicinity, namely: Casa Verdugo, West Glendale, Eagle Rock and Central avenue. There were fifty-two present in all. Luncheon was served at noon which was followed by a very interesting program opened by a violin solo by Elwood Ingledue, accompanied by Helen Ingledue. The next number all joined in singing "Stand Up, Stand Up for Jesus," after which short talks were given on the different branches of their work in this vicinity.

Mrs. Rev. Cookman from West Glendale Methodist church gave an interesting talk on the San Pedro Immigrant Home, and the work that is being done there. Mrs. G. Tisdale, from Central avenue Methodist gave a talk on the Deaconess Friendly House, which is located in Los Angeles, and Mrs. Hoskins, of the First Methodist church, gave a talk on Spanish work, representing the Frances DePauw Home.

After these numbers, Mrs. H. O. Sisson, district president, came over from Pasadena and gave a splendid talk on general work of the Home Missionary societies. At the close of her talk all who were present were asked if they were members of the Home Missionary and at that time an auxiliary was formed for the Casa Verdugo Methodist church.

Father O'Neill's Work Is Given Recognition

Los Angeles Council of Knights of Columbus have subscribed to a beautiful stained glass window for the new Holy Family church in recognition of Rev. James O'Neill's co-operation with the Los Angeles council No. 621 when acting as their chaplain a few years ago. Father O'Neill's labors and unselfish devotion to the Los Angeles council will never be forgotten by the members and a window for the new church can only partially pay, in a small way, the due respect and love that the Los Angeles Knights have for Father James S. O'Neill, the members declare.

A similar movement has been on foot in Glendale, where many members of Knights of Columbus of different councils live, for another beautiful stained glass window to be presented for the new Holy Family church. This window is also to be given in recognition of Father O'Neill's spiritual care of the Catholic community.

W. B. Kelly, Jesse E. Smith and Mrs. T. J. Keleher compose the committee which is receiving donations for this window, which will permanently adorn the new church as a lasting tribute to the pastor.

A liar is never wise, for truth is the heart of wisdom.

Mechanical Features At Local High School

By A. R. OLIVER
Head of Mechanical Department
(Continued from Yesterday)

Cars having gone to the owners who are testing the efficiency of school automotive shop instructions.

The automotive industry of today is very extensive, almost every person owning some make of an automobile. The make, design, condition under which the automotive employes must labor enter into our field of thought when we take under consideration the formulating of an automotive course of study such as would be suitable for the age of students we receive into our high school. Where it was necessary in the earlier days to laboriously study and figure out problems for one's self perhaps from several text books and considerable labor, we now have courses formulated so that the student will receive benefit from both science and practice and arrange his training in a broad, general way along several branches and not on any special piece of work.

But to carry this work along even in an elementary manner it necessitates considerable equipment and we must keep adding to this equipment if we are to retain our place as one of the foremost Mechanical Arts Departments in the state. Our shops today will not accommodate the students that wish to enroll in the several branches, we have no automotive shop, only a makeshift and teaching under such conditions is not conducive to the best of inspirations from either instructor or students. We are hoping that the morrow will bring some tidings of a release from crowded conditions as they exist today and which will be much worse in September of this year.

At a later date A. R. Oliver will give full details of the working of the several departments connected with the Mechanical Arts Building, also he will endeavor to show that work taken in either of the above departments will play an important part in the life of every male student.

Farmer Can Increase His Return Per Acre

STOCKTON, June 9.—"The farmer who deems it desirable to increase his returns per acre by larger yields may achieve this object in two ways," stated Professor P. A. Boving in an announcement here.

"He can either adopt improved cultural methods, including better feeding of the crops, and better tillage of the land, or he may introduce seed of better varieties or more suitable strains. A combination of the two systems, of course, will give higher and safer returns than will the use of either singly.

"Provided he doesn't plant inferior varieties, the average man has a greater possibility for gain through the adoption of better cultural methods than by the introduction of better seed. Improved cultural methods may mean anywhere from 10 to 100 per cent increase. An introduction of an improved strain of a certain good variety of seed will effect an average increase of about 15 per cent in the yield. The exact increase depends, of course, on what seed was being used before. By adopting both better cultural methods, and better seed, the increase is usually exceptionally large."

Professional Hobo Is Modernizing His Ways

TULARE, June 9.—Even the professional hoboes are modernizing their methods, if the professional tactics of a hobo who recently visited here are any indication.

The most up-to-date and modern "Weary Willie," scorning the old-time "side-door Pullmans," arrived in one of Henry Ford's latest productions, and parked it in front of a prominent store. From the machine he took a bundle of old clothes, tucked them snugly under his arm, and started on a high finance campaign. Humbly he approached the passerby, saying he was out of a job, and asking for "just two-bits to get a cup of coffee and a bite to eat." After varying but apparently satisfactory results he went back to his car, threw his old "work" clothes into it, deftly rolled and lighted a cigaret, climbed in, pumped the starter, and was gone.

Of specialization. A man who seeks to lead in a certain line of endeavor can usually gain his goal.

The same holds true with business firms—as well as individuals.

Some firms sacrifice everything to a cheapness of price—but we bend our every effort to first secure **QUALITY**—to buy the **BEST** of everything in the line of groceries and meats.

Our next effort is then in the line of **Service**—to correctly fill your order and promptly deliver it. We then make the price as low as possible—but whatever the price you are assured of absolute high quality and an unusual service.

Glendale Leads in Building

Glendale continues to lead all cities of its class in the United States in home-building.

The reason is obvious. People are coming and will continue to come to Southern California to make their homes. Of all cities in which it is possible for them to locate, Glendale offers the most attractive advantages, and will continue to grow.

High prices retarded building a couple of years ago. However, people have learned the facts about reduced building costs of the present. They have found that prices are down, that it costs less to build now than last year and as little or perhaps less than it will for some time to come.

We have assisted hundreds of people in their building problems.

Have YOU taken advantage of our free and helpful service? If not, come in—we can be of service to you.

Charges Not Answered, Says Philippine Paper

MANILA, June 9. — Thirty-five charges against the Filipino government party, presented to the Woods-Forbes commission and all published in the newspaper organ of the opposition party, have gone unanswered by the government supporters.

The charges included malfeasance now maladministration in public office, miscarriages of justice, election frauds and other grave allegations of a similar nature.

The newspaper, Independent, editorially said today it desires that the United States grant independence to the islands so that the "Philippines might follow the Cuban and Mexican policy of driving the land barons from politics."

Various translations from the vernacular press revealing diatribe which indicate class cleavage and sectional bitterism, are among documents which have been presented to the Woods-Forbes mission.

C. B. Guthrie Agency Reports Realty Sales

John F. Gynan, recently residing at Gardena and Cerritos avenues, has purchased, through the Charles B. Guthrie agency, the cozy home at 903 Melrose avenue from Earl C. McIntosh. This is practically a new home, but Mr. Gynan will immediately improve it. Mr. McIntosh, in turn, wishing to keep his residence in Glendale, purchased through the same agency the half acre ranch at 1274 Mariposa street, from Mrs. Jessie L. Martin. This place has recently been undergoing repairs and improvements and has a quantity of fruit trees.

Another sale recently made by this same agency was to Mr. and Mrs. C. M. Graves, newcomers recently from Erie, Pennsylvania, who have been residing with their son at 516 Vine street. They purchased the Wilford Cline home at 332 East Cypress street.

The following lots are also included in recent sales of this firm:

From H. P. Goodwin to Myrtle Baldwin, lot on Brand boulevard between Milford and Doran.

From H. W. Fairbanks to Myrtle Baldwin, two acres on Grand View avenue.

From A. M. Fargo of Los Angeles to Samuel Gibbons, two lots on Stocker street.

From E. R. Allen to F. J. Noel, lot on West Windsor road near San Fernando road. Mr. Noel has already started the construction of a house and is living on the property.

From Frank D. Meyers to H. P. Goodwin, lot on Brand south of Doran.

From Frank D. Meyers to Daisy Findley, lot on Brand south of Doran.

From Mrs. D. G. Davies to W. E. Tedford, lot at Goodwin and Beuel streets, just across Southern Pacific tracks in Los Angeles.

Mrs. Weston To Build 'Week-End' Residence

Mrs. Lily Weston of Los Angeles will build the first "week-end place" in the newly-opened subdivision in Verdugo Woodlands. She has purchased a lot at the intersection of Rustic and Woodland lanes, between the scenic Verdugo Road and Canada boulevard foothill drives by which the everlasting Verdugo springs ripple along to Glendale. Hundreds of buyers seeking homesites are daily visitors at the tract selecting the best, and Glendale people who want to build in this beautiful section are missing golden opportunities in not getting what they want today, according to W. L. Twining, manager of the F. P. Newport company, who has himself established a home at 1900 Canada boulevard.

Grain Dealers Battle to Save Famous 'Pit'

CHICAGO, June 9.—"Fighting Joe" Griffin led grain traders in battle today to save the "pit," the world's greatest grain market.

The "pit," famed in fiction and fact stories the world over and known otherwise as the Chicago board of trade, faces extermination by legislation.

A death blow is dealt "pit" operations in bills pending in Washington and in the state legislature at Springfield.

Many embattled farmers, speaking through representatives, demand that speculation in grain cease and many other activities of the "pit" be curtailed. Traders say this would mean death to the exchange.

Leaders of the opposition farmers view the "pit" as a gambling den where fortunes are made and lost at the expense of the farmer who produces the grain.

Griffin, wealthy president of the board of trade, has organized his aides to fight for the right of the exchange to exist. Griffin holds that some speculation in grains is essential to grain marketing, and that the farmers do not suffer but are helped by "pit" operations.

Some farmers have allied to Griffin's cause. Farmers stormed the legislative halls at Springfield, demanding that the exchange bill be killed.

The "pit" is one of the show places of America. Usually, a visitor would no more think of leaving Chicago without seeing the frantic brokers buying and selling thousands of bushels of grain with the twist of a thumb, than they would leave Egypt without gazing on the pyramids.

Way back in 1838 a farmer jogged into the little prairie town of Chicago with seventy-eight bushels of wheat in his rickety cart. He sold it at a high price and he went home and told the neighbors.

Neighbors' rickety carts followed and Chicago was established as the grain center of the world.

Carts were replaced in 1848 when the first grain reached Chicago by rail. That year eighty-two merchants and trades established the "pit" with a membership fee of $5. It now costs $25,000 to join the board of trade and seats are sold as high as $8,000.

MANY WANT POSTOFFICE
A rush of signatures to the independent postoffice petition which will soon be taken to Washington is reported at the Chamber of Commerce.

Glendale & Montrose Railway Files Report

The Glendale & Montrose railway, operating in Glendale with termini at La Crescenta and Eagle Rock, reports to the railroad commission for the year 1920 that its operating revenue was $23,379.57 and its operating expense $32,155.98, showing a net operating loss of $8,776.31. The corporate loss for the year was $9,859.29 and the deficit at the beginning of the year amounted to $61,320.27. The accumulated deficit at the end of the year was $71,233.91.

Several other short lines showed deficits and indications are that the Glendale & Montrose company's business is increasing to a revenue-producing point. With the development of Verdugo Woodlands and more homes along the stretch of land in Verdugo canyon, there is no question but what the line's patronage will be profitable.

National Commander Of Legion Is Killed

INDIANAPOLIS, June 9.—Colonel Frederick W. Galbraith, "fighting colonel of the fighting first" in France and national commander of the American Legion, met death here early today when an automobile in which he was riding went over a sixteen-foot embankment.

Colonel Galbraith was pinned under the machine and fatally crushed. Two companions, Colonel Milton J. Foreman of Chicago, leader in the Illinois American Legion, and Henry Ryan, director of Americanization of the legion was bruised and scratched.

Ryan was driving the machine, a roadster. He lost control of it as he was crossing a railroad track. The machine swerved from the road and plunged headlong down the embankment.

The three had attended a rally on the outskirts of Indianapolis in behalf of the military training camp campaign.

Mr. and Mrs. Puffer To Return Here Soon

Word has been received that Mr. and Mrs. R. A. Puffer, who left Glendale several weeks ago on a pleasure trip that has taken them through a number of eastern states, will leave Chicago next week on their return trip. It will probably be a fortnight, however, before the couple get home, as they are planning to make brief visits with friends in Omaha, Denver, Colorado Springs, Salt Lake and San Francisco. Mr. and Mrs. Puffer have already visited several eastern cities on their trip, having spent ten days in Detroit, which is their home town.

Watching Scoreboard

Yesterday's hero—Bobby Roth. The Yankee outfielder with the winning run on third, singled in the ninth and the Yanks beat the Indians 4 to 3.

Uhle allowed only two hits in eight innings, but was knocked out in the last.

Singles by Mulligan, Faber and Collins, with an error in the tenth inning, enabled the White Sox to beat the Athletics, 9 to 7. Welch and Dugan hit homers.

Sam Jones held the Browns to two hits in eight innings but singles by Ellerbe, Collins and Lee and a double by Bayne in the ninth gave the Browns a 2 to 1 win.

Mogridge held the Tigers safe all the way and won 6 to 1.

Three big innings, first, fifth and ninth, gave the Phils a 11 to 8 victory over the Cubs.

The Pirates mauled four Brave pitchers for twenty-five hits and went back into first place with a 16 to 4 victory.

The Cards made four runs off four singles in the first inning and beat the Robins 4 to 2.

Chevrolet Announces Decrease In Prices

"The greatest value in automobiles" is the slogan adopted by Fish & Tarr, authorized agents for the Chevrolet motorcars at 115 East Broadway, on learning today of the decided drop in the prices of that popular machine.

In other columns new list prices of the Chevrolet will be found and it is simply astounding how reasonable one can now provide themselves with a summer's pleasure in the way of motorcars. Fish & Tarr expect to reach a peak in sales soon as their machine is brought within the reach of practically everyone's pocketbook.

Immigrants at Ellis Island are now permitted to cultivate flower beds and fruit. Experts from the vineyards of Italy and Greeks from the land of olives are competing in decorating the detention island. The Red Cross provides fertilizer and oversees the work.

Seek Conference Over River

A conference between Mexican and American reclamation officials over the Colorado river project has been requested by Chief Engineer Manuel Balarezo of the Mexican federal trade commission, it became known today.

It is understood that Mexico has appropriated $600,000 in American money to straighten and shorten the course of the Colorado river, conserve water in Volcano lake and complete the Boulder dam flood-protection project.

"We desire the hearty co-operation of the American government," Balarezo is quoted as saying. "Mexico would be inclined to favor a treaty giving the valley safeguards for building a canal system to serve the district."

Balarezo is former governor of Lower California. He is associated in federal reclamation work with former District Treasurer Troyo.

Threat of Jail Terms

Speeding on the Ridge Route will draw jail terms for motorists, according to Justice of the Peace Baird. He is slapping on the fines for violations of the traffic laws over this dangerous strip of road.

This Flight Paying One

The Angels' flight cable car line in Los Angeles last year earned more than $16,000. The company has quite a little nest egg now for rebuilding or something, besides paying good dividends.

Cottonseed Sent to Denmark

Four thousand tons of cottonseed were shipped on the steamer Buenos Aires to Copenhagen, Denmark, by the Globe Cotton Oil Mills. This is the fourth shipment of cottonseed for a stock feed shipped to Denmark in the last two years.

Find Rich Gold Ledge

Discovery of a rich gold ledge in the Cocopah Sierra mountains, thirty miles south of the international boundary, was announced today by two American citizens, who arrived in Calexico with nuggets for assay.

The men are Alex Ciste and Romaldo Ochoa, residents of Calexico.

A general stampede of prospectors for the Cocopah Sierras is expected.

Government Seat Changed

Rumors that the seat of government of Lower California had been removed from Mexicali to Ensenada have been confirmed by Mexican officials, according to advices reaching Calexico today.

The switch is thought to be but a temporary one, pending settlement of revolutionary troubles in the state.

Objects, So She Resigns

What would you do if you were a bank teller and told how to handle an account? Would you do it and become an accessory to what is now alleged to be a fraud? Or would you quit? Miss Edna B. Newlin of the National Bank & Trust company of Pasadena quit, according to her testimony in the Pyle-Conner case in which fraud is charged in connection with the Master Pictures corporation.

Bean Baron's Son Sued

Guy Edward Lewis, son of a Ventura county bean baron, is being sued for divorce. The customary "Follies" girl features in the allegations, while the cross-complaint tells of an unknown man and untrue wife. Considering their wealth, it seems simple for such wealthy people as the Lewis family is said to be, to offer such a stereotyped complaint of infidelity.

MARY PICKFORD AT PALACE GRAND IN CHARMING STORY

DEPICTS ONE OF HER FAMOUS CHILD ROLES; GOOD COMEDY IS ALSO ON PROGRAM

Mary Pickford, the eternal little girl, is with us once more in her brand new United Artists' production, "Through the Back Door," which opened yesterday for a three days' run at the Palace Grand.

With all her cuteness, all her winsome and whimsical charm, Little Mary is shown depicting one of her famous child roles, the one characterization in which she will always reign supreme. Even more youthful and beautiful than ever is Mary Pickford in this picture. Her interpretation of the little girl part is more genuine and more convincing than anything she has ever done in the past.

In the beginning of this feature she appears in rags, and in "gladrags" at the finish. Clad in wooden shoes and in the picturesque costume of a little Belgian miss, she clatters across the aluminum sheet straight to the hearts of those who watch her from the darkened depths of the seat-filled house.

Touching Scenes, Too

In spite of the fact that one laughs much at this picture, there comes times when handkerchief is not amiss. Especially is this true when Mary as Little Jeanne Bodamere comes to America to make herself known to the mother who thinks her dead.

Many are the obstacles that she surmounts before the mother finally learns that her little daughter is a servant in her own home. The scene that reveals this is undoubtedly one of the most touching that has ever been filmed.

A good comedy and excellent orchestration complete the pleasing program.

Alleged Slayer Of 5 Writes Her Own Story

By MRS. LYDIA SOUTHARD
Written for the United Press.

SAN FRANCISCO, June 9.—"I do not want to discuss the case, but I do want to take this opportunity to tell how nice and kind Mr. Ormsby and Mrs. Ormsby have been to me.

"Everything has been perfectly lovely and ever since we started they have done everything to make me as comfortable as possible, and to lessen the ordeal.

"If it was necessary to bring me back at all, I am certainly grateful that the Ormsby's were chosen to do it. Mr. Ormsby was particularly kind yesterday when the crowd of cameramen and reporters rushed down on me and began hurling every conceivable question at me about the case, and trying to photograph me which ever way I turned.

"I could not talk about the accusations made against me, of course. My lawyer told me that the place for proving my innocence is in the court room, and, however unpleasant it may be to be accused without making a reply, to wait until the trial commences before discussing the case.

When I went into my stateroom Mr. Ormsby barred the doorway and wouldn't let some of the more brazen reporters push their way past.

"I cannot state how grateful I am that the Ormsbys did not cause me to spend the night in jail, as they might have, but brought me here instead, where I could get a good night's rest. The jail was very crowded and I was worn out and nervous after yesterday's ordeal.

"The theatre last night was a great relaxation and it was very kind of the Ormsbys to take me, for they were not at all under any obligation to do so. I also enjoyed the little shopping tour with Mrs. Ormsby in Chinatown. She had promised her young daughter a kimono, and we shopped through the various stores until she found what she wanted.

"I shall be very glad to get to Twin Falls and wish to be tried as soon as possible.

Mr. Southard received orders to come back from Honolulu just as we were sailing. He is aboard the navy collier, Jason, which left a few days after we did and which, I understood, is expected here on Saturday. He will go at once to San Pedro where he has applied for a furlough which we feel sure will be granted.

"He knows I am innocent, and it will be a great comfort to have him by my side during the trial."

Not to be confused with suction sweeping is the APEX principle of cleaning *entirely* by suction. APEX suction needs no help from a power driven brush to beat and pound the delicate nap of rugs and carpets. Its rushing river of harmless air is alone sufficient to draw out every particle of deeply imbedded dust and dirt.

The APEX bristle brush does not revolve but is stationary. It gently combs the surface of the carpet, picking up all threads, lint, hair and litter without the slightest wear or injury.

jubilee fund. This is being raised for the purpose of sending money to other countries asking for help in living up to the motto, "The World Dry in 1922."

Helen M. Stoddard was foremost in this strenuous work. She chose as the topic of her annual address "Sacrifice and Service," who urged that there be no slowing up until the national goal of 1,000,000 members be reached. California is asked to secure 12,000 members.

Various Reports Submitted

Another very interesting report was that of Mrs. Hattie M. Doughty, who has charge of the Young People's branch, as was that also of Mrs. Ellen Dayton Blair.

Mrs. E. L. Barnes, home mother at the Home Center for Service Men at San Diego, reported that 11,844 enlisted men had been entertained at the home during the past year.

Report was also given of the splendid work being done at the Frances Willard Home for Girls in the Temple building, Los Angeles.

The following departments will be given special attention during the coming year: Child welfare, Americanization, christian citizenship, legislation, medical temperance, anti-narcotics, evangelistic, and parliamentary drills.

Winner of Silk Flag

Dr. Len Hutchings of Los Angeles county won a beautiful silk flag, given as a prize in the parliamentary law drill conducted by Mrs. I. W. Gleason, national parliamentarian.

Mrs. Stella Stoddard, anti-narcotic superintendent, spoke on the cigarette evil in connection with girls as well as boys.

The following state officers were elected: Mrs. Eva C. Wheeler of Puente, state president; Mrs. Julia D. Phelps of Los Angeles, vice-president; Mrs. Clara B. Sheldon of Los Angeles, treasurer; Mrs. Ada B. Cummings of Santa Paula, corresponding secretary; Mrs. Hattie C. Young of Los Angeles, recording secretary; Mrs. Lea Warren of Santa Ana, assistant recording secretary.

An amendment to the state W. C. T. U. constitution was adopted making the "Mothers and Daughters of the Temperance Crusade" an auxiliary of the state W. C. T. U.

Film Stars To Help Show For Sick Fund

There are surprises in store for those who will attend the great performance of twelve all-star vaudeville acts to be presented Wednesday night, June 15, at the Palace Grand, for the benefit of the American Legion Sick Fund.

Already Madame Constance Balfour, soprano, assisted by Morris Stoloff, violinist, and Miss Esther Rhodes, harpist, have been announced. Then, too, the famed Russian entertainers, Sonia Zariova, G. W. Golukeff and A. N. Ivanoff, have been mentioned for musical numbers and the McAdams Dancers make up three of the dozen to appear.

But there are film stars and stage stars who are coming and do their bit, it is a case of "every buddie help a buddie" and buy a ticket today.

Harry M. Miller Co. Reports Several Sales

Samuel Miller of Phoenix, Ariz., has purchased the H. Goodwin home at 304 East Windsor road. The sale was made through the agency of the Harry M. Miller realty firm. This same firm sold three and one-half acres at Sixth and Sonora streets to Mr. Moyer of Glassell Park, who has already erected a garage and is about to build a six-room home there.

Dr. E. W. Hunt, who recently sold his home at 420 West Elk has purchased the Fambrough house on Elk avenue just east of Central, this deal also being made through the Harry M. Miller company.

W. F. Hollomon Here For Business Visit

W. F. Hollomon, a resident of Burbank, where he is engaged in the auction business, was a business visitor to Glendale yesterday. He will take part in the auction sale to be held Friday at 2:30 o'clock at the storerooms of Heal & King, announcement of which has been appearing in the columns of The Evening News. The sale will be in charge of Fred Heal and is being held for the purpose of making room for the increasing stock.

Mr. Hollomon is an auctioneer of many years' experience. He was in business in New Mexico and is familiar with all lines of auctioneering except the selling of jewelry.

FAMOUS STAGE PLAY SHOWN ON SCREEN AT GLENDALE

DAVID BELASCO'S 'HEART OF MARYLAND' PRESENTS SOME NOTED HISTORIC SCENES

You have longed for a big picture. There is something worth while in photoplay at the Glendale Theatre today, tomorrow and Saturday, which commends itself to every man, woman and child. This is a visualization of David Belasco's famous stage production, "The Heart of Maryland." The play was a phenomenal success, but the film has achieved even greater triumph, for with the camera it is possible to obtain scenes, locations and settings that could not be reproduced with painted canvas.

Tom Terriss, who directed the production, has made every effort to produce a picture which would have a historic value and be of interest to the pupils of the public schools. He has secured for this purpose many authentic locations which played important roles in the conflict between 1861-1865.

Uses Noted Sites

He used such sites as The Briars, General Grant's headquarters; the mansion in which Jefferson Davis was married and where great balls were given in honor of Henry Clay. For the chapel scenes he secured a location where a famous traitor was tried. This chapel is one of the historic places of the south, but has long since fallen into decay and is given over to colored people as a place of worship. Beautiful scenes were "shot" overlooking the Mississippi valley, showing a wonderful expanse of territory. A strange yet marvelous location which is shown in the picture is known as Knut's Folly, a magnificent building, commenced during the Civil War and never completed.

"Bumping Into Broadway" with Harold Lloyd and other attractions fill the bill.

As an added feature, Miss Dorothy Taylor will sing ballads of Civil War days. Some show!

Candidates For School Board Without Rivals

Election of city school trustees at the coming municipal election June 28 will be easy.

There are five trustees to be named. There are five nominees for the board, which means that no one will lose, unless unforeseen opposition enters the field.

It is stated that some little effort was extended to obtain Mrs. A. A. Barton and Dr. P. O. Lucas to consent to run for the office.

David J. Hibben, Mrs. Arthur Brown and David Black, members of the present board of three trustees, are running for re-election.

Big issues face the incoming board, one being providing approximately $200,000 in new school grounds and buildings at the earliest possible moment to ameliorate the overcrowded conditions.

State Society Picnic To Be Given Saturday

There will be a very interesting meeting of the Massachusetts state society, in the form of a picnic, to be held at Sycamore Grove Park, Los Angeles, on Saturday, June 18.

An appropriate and interesting program will open about 3 o'clock. One of the main features of the afternoon will be the showing of the picture "The Spirit of '76." There will be a solo "The Sword of Bunker Hill," by Charles S. Lamb, who will also lead the patriotic singing.

The speakers of the afternoon will be General Frank C. Prescott representing the "Sons of the American Revolution" and Miss Harriett Spalding, representing the "Daughters of the American Revolution."

The exercises are in charge of President Paul W. Zimmerman.

Madame Julia Nicholls To Give Free Lecture

The general public has at this time become more than usually interested in radium and its mysterious properties. A few investigators, learning that one in their midst has for many years made a special study of the various phases of radiations, have invited Madame Julia Nicholls of 131 East Lomita avenue, a spectroscopist, to give a public address on what she claims to be a discovery.

Her formula covers the manifestations of solar-light, which in its application offers a tenable explanation of all electrical, magnetic, radio-active and optical effects; and which directs to the only possible way by which radium may be used as a means curative for cancer. Physicians, electricians and all who are interested as to the cause of these fundamental phenomena are cordially invited to be present Saturday afternoon, June 11, at 2:30 o'clock, at room 805 Brack Shops, 527 West Seventh street, Los Angeles. The admission is free. No children are permitted to attend.

Find Mammoth's Tusk Near Eugene, Oregon

EUGENE, Ore., June 9.—The discovery of a mammoth's tusk, a remnant of the pleistocene, or glacial age, was found three miles south of here by two geology students, Delmar L. Powers and Fred E. Wilson. The discovery substantiates a step further the recently made claim that the country around Eugene was once under the sea, and was later a part of an ancient shore line. The tusk was found six feet under ground, lying horizontally at a break between the reddish yellow shale, and was overlaid by grey clay. Another portion of the same tusk was dug up near the bank of a stream about a mile distant, Powers and Wilson said. This is the second such tusk which has been found near here during the past year.

Admiral Sims Asserts He Stands By Words

LONDON, June 9.—"I have no reason to believe I was misquoted in cable accounts of my speech before the English speaking union," Admiral William S. Sims told the United Press today. Sims said he had not received the cable sent by Secretary Denby asking if the anti-Sinn Fein quotations were correct.

"I presume Irish politicians in the United States are trying to stir up trouble," he said.

Sims said he could not comment on the secretary's action in cabling him. He did not appear greatly worried over the possibility of a reprimand.

"I said nothing that I have not said dozens of times in the United States and in my book," he declared.

Girl Left But $100 In Will, Files Action

COLUMBUS, Neb.—Miss Laura Backes, 18, who inherited an estate valued at nearly $200,000 following the death of her father, Henry Backes, two years ago, has filed objections in county court to the admission to probate of the will left by her grandfather, the late Peter Backes of Lindsay, Neb.

In his will, her grandfather bequeathed her $100, and a like sum to her two cousins and aunt. It is said that Miss Backes' motive in contesting the will is not a selfish one, but indicates that it is rather an effort to obtain for her two cousins and her aunt larger shares of the estate, which is valued at between $60,000 and $100,000.

This Deer Is White Elephant, Man Asserts

SAN FRANCISCO, June 9.—There are times when a deer becomes a white elephant. George F. Anderson of the Hollywood district thinks so, anyway. One horned in on him and he hasn't been able to get rid of it. And the season is closed.

The deer came down from the hills or somewhere last week while Anderson was cutting grain on his farm near Hollywood. A friend happened to pass by, and being a reformed cowboy, this friend took it into his head to lasso the dear. So he did. Now the deer is on Anderson's hands and nobody wants it, not even the park board.

The deer has taken quarters in Anderson's barn, developed an enormous appetite, and seems perfectly happy. Nor is he willing to depart. Anderson believes the only way out for him is persuade the deer to commit suicide or be a good fellow and die of old age.

Prosperity In State Is Shown By Banks

SACRAMENTO, July 9.—Increasing strength in this state indicate sound prosperity in California, according to a statement made by State Bank Superintendent Charles Stern.

"The state banks of California are today stronger in resources by $123,189 than a year ago," Stern said. "Their working capital has increased $22,789,000 and their gross deposits have passed the billion and a quarter dollar mark, showing an increase of $91,445,000.

Since the first of January the increase in savings deposits was $9,326,000.

"This is a year of essential depletion and liquidation. When we consider that the dollar today has a working power very much larger than the dollar of a year ago—our position is striking. The basis of California's prosperity is broad and deep. It is essential food production, a strategic geographical location, and the most diversified life of any American commonwealth.

Thief Removes Motor From Pop-Corn Plant

SAN FRANCISCO—Now comes along the strangest thief of all. A popcorn proprietor reported that a person heavily inoculated with the germs of kleptomania made entry into his place of business and removed a motor from the popcorn machine and made his escape.

The proprietor is hinting darkly that it may be someone who is attempting to reform the world by stemming the sweeping tide of the popcorn habit.

Perhaps Cargo Carried Caused Ocean's Attempt

VANCOUVER, June 9.—The thirsty ocean yawned and almost engulfed the steamer Spectator a few days ago, according to a report in marine circles here. The British vessel was bound for Vancouver from Mexico City with 10,000 cases of Scotch whisky aboard.

The vessel was 150 miles off the California coast, according to the report, when an earthquake mussed up the bed of the ocean. A grinding, sucking noise followed and the ship was sucked down.

The engines stopped dead, and there was a hill of water on either side. This lasted for ninety seconds, and then the vessel pulled clear. Two minutes later the ocean took another gulp at her, but found her too hard a pill to swallow, and finally permitted her to proceed on her way without further peril.

Whether the gulping was a reflection of the mental attittude of Caltion of the mental attitude of Calmembers of the Spectator's crew had been sampling the cargo could not be learned.

Big Mountain Ranges Collapse From Quakes

By CHARLES EDWARD HOGUE
United Press Staff Correspondent

SHANGHAI — Whole mountain ranges collapsed and buried scores of villages and towns under a sea of loose soil, when Kansu province was stricken by a series of earthquakes that continued for more than a month. This is the word brought to Shanghai by H. D. Hayes and J. W. Hall, investigators for the United International Famine Relief society. They have just completed a survey of the devastated area.

No accurate estimate is made as to the number of lives lost, but it is known that more than 200,000 were killed. The province has been so badly depopulated that it is likely the artisans will be imported from neighboring states to aid in the work of rehabilitation.

Landslides have blocked many of the mountain streams and a fresh danger menaces the survivors of the earthquakes. The dammed streams are backing up in the gorges and forming huge lakes. Seepage has already begun at various places and the loose earth threatens to go out at any time. In scores of instances the breaking of such a dam would mean the inundation of a valley and the death of the inhabitants, besides the probable starting of further landslides.

Aerial Patrol Station For Visalia Proposed

VISALIA, June 9.—The directors of the Visalia board of trade have authorized a committee to purchase all materials necessary for the establishment of an aerial patrol station here. Enough money has been collected to make the undertaking a success, and work will begin immediately. The base will serve as an intermediate flying station for aviators traveling between San Francisco and Los Angeles, and will in addition, it is hoped, draw a large number of permanent aviators to this field to conduct their maneuvers. The Tulare County Building Trades Council has offered to construct the barracks on the field. Construction will be begun at once.
